**Swift Gripping Drama
in Triangle Plays**

Nothing more breath-taking than "The Coward," the great Civil War Drama, at the Chestnut Street Opera House, has ever been seen in Philadelphia. You can almost hear the shot and shell. You can see tearing action in swift that it makes you clutch your seat. It moves you.

Then there's "Old Heidelberg" with Dorothy Gish—the sweet sort of a romantic play that arouses your warmest sympathies.

And for fun and laughter you have Raymond Hitchcock and Mabel Normand in "Switch Mary," and Eddie Foy and all the little boys in "A Favorite Fool."

Chestnut Street Opera House

A SCENE FROM

**"A Corner
in Cotton"**

Featuring Marguerite Snow.
Presented at the Lyceum Monday, October 16th, 1916.

It's A Measley Shame.

We doubt if there is a better poultry country anywhere than Curry County and eastern New Mexico. Poultry of all kinds thrive here. Disease, insects and pests are practically unknown. Poultry requires less care and attention here than any place we know of. And at first thought, it would seem that this would be one of the chief industries of this section.

However, as yet, but little real attention has been given to the poultry business especially in Curry county. The people of this county are absolutely losing thousands of dollars annually by not engaging more earnestly in this industry. Here is a rich field, virtually untouched.

Mr. J. Frank Neal has sent nearly \$2000 worth of eggs for eggs within the past week. He was compelled to do this because he could not get them here. He could not get the eggs here for the simple fact they are not in the country. They are not in the country just because our people have been sleeping and have overlooked a big sure dividend paying proposition.

What are you going to do about it?

If you want a new look or heating stove, see Brown Furniture Co., 214 So. Main St., will trade for your old

**Building for the
Future**

No community builds only for the present. Public buildings, parks, driveways and viaducts, for example, are planned to meet the requirements of the community's growth.

A telephone company must also build for the future.

Communities are always growing up to their telephone development. Hence exchanges, switchboards and subways must be built, not only to care for present needs, but they must be planned to be readily and economically adapted to necessary extensions and developments for several years ahead.

Construction plans are based on careful studies of each locality by men especially trained in estimating possibilities in growth of population and commercial and industrial expansion.

It is the long look ahead that enables our engineers to anticipate the future needs of each locality and to provide increased telephone facilities when needed, most efficiently and economically.

The public is best served by this policy of anticipating rather than trailing in the rear of a community's advancement.

The Mountain States Telephone and Telegraph Co.

**FIRST SCREEN APPEARANCE OF
